

Special Issue: A Brief and Grammatically Correct Title

Firstname1 Lastname1, Firstname2 Lastname2, and Firstname3 Lastname3

This template is to be used for preparing special issue editorials for *The International Journal of Intelligent Control and Systems (IJICS)*. Use of this template will save time in the production process and will expedite publication. You can simply type your text into this template. Do not modify the template in any way (delete spaces, modify font size, modify line height, etc.).

Before submitting, please delete all of the instructions and examples from the template that are not needed. Make sure that all pages have page numbers. Ensure that all parts of the editorial are presented clearly. For any questions, please contact the editorial office of the journal at ijics@caa.org.cn.

(1) Manuscript preparation. Special issue editorials provide an overview of the special issue and its theme, and introduce the contributions included in the issue. They should be written in good English, and possible grammatical or spelling errors should be carefully avoided. The writing style should be simple and straightforward, and any undue self-appraisal should be avoided. PDF files are preferred for submission, but DOC files are also accepted. This template is available for download on the journal website: <https://www.ijics.cn/>.

(2) Manuscript structure. Special issue editorials may include the following sections in order to ensure that essential elements are presented, and adjustments to the structure are acceptable.

Title page: This page should include a concise and informative title, give all author names, affiliations, and e-mail addresses.

Main body: This section provides an overview of the special issue and its theme. It should open with a description of the background, significance, and timeliness of the topic, then introduce the contributions included in the issue. Accepted papers are typically grouped into several thematic categories, with each group summarized in a concise manner to highlight its key focus and main findings. The editorial should be well-organized and clearly structured, guiding readers through the content of the special issue.

References: This section lists all references cited in the work. References need to be cited in ascending numerical order. When referring to references in the text, please use formats such as [1, 2] or [1–3].

Author biography: This section briefly introduces the au-

thor(s), including color photographs, educational background, current position, and research interests.
